

CONTENTS

Number 1, July, 1961

Changing Concepts in the Therapy of Lung Abscess: A Twenty Year Survey. <i>Mark W. Wolcott, M.D., Oswald H. Coury, M.D., and George L. Baum, M.D.</i>	1
Pulmonary Resection in the Treatment of Tuberculosis. <i>John H. Foster, M.D., Duncan A. Killen, M.D., and Walton W. Hubbard, M.D.</i>	5
Massive Pulmonary Cavitary Bleeding. <i>Paul R. Ellis, Jr., M.D., M. Herbert Nathan, M.D., and P. O. Jones, M.D.</i>	18
Azygography in Bronchogenic Carcinoma. <i>G. Miskovits, M.D., and S. Szucs, M.D.</i>	24
Surgical Treatment of Primary Malignant Lymphoma of the Lung. <i>Jacob Berghuis, M.D., O. Theron Clagett, M.D., and Edgar G. Harrison, Jr., M.D.</i>	29
Inhalation of Varying Concentrations of Oxygen in The Treatment of Severe Pulmonary Insufficiency. <i>Douglas David, M.D., Robert M. Poske, M.D., and Angelo Toigo, M.D.</i>	45
Colloquium on New Antituberculosis Drugs. <i>O. Wiedemann, M.D.</i>	50
Surgical Considerations of Bullous Emphysema. <i>Louis F. Knoepp, M.D.</i>	55
Pulmonary Hydatosis. <i>Michael A. Salmon</i>	61
Giant Cell Carcinoma of the Lung: Cytologic Study of Exfoliated Cells in Sputa and Bronchial Washings. <i>Zuher M. Nafz, M.D.</i>	69
Herpes Zoster Pneumonitis: Case Report. <i>F. W. Wilson, M.D., and T. B. Matlock, M.D.</i>	74
Rupture of Bronchus with Recurrent Stricture Following Primary Anastomosis. <i>Joseph B. Ford, Jr., M.D., and Coe T. Swift, M.D.</i>	76
X-Ray Film of the Month. <i>Clark Grimm, M.D.</i>	80
SECTION ON CARDIOVASCULAR DISEASES	
Pericardial Effusion in Congestive Heart Failure. <i>William L. Winters, Jr., M.D., Barbara L. Carter, M.D., Herbert H. Stauffer, M.D., and Louis A. Solog, M.D.</i>	82
Role of Hypothermia in Protection of Myocardial Metabolism During Cardiopulmonary By-Pass and Elective Cardiac Arrest. <i>Robert G. Ellison, M.D., Samuel A. Singel, Ph.D., William H. Moretz, M.D., Edwin L. Brackney, M.D., Walter F. Butler, B.S., William C. Maloy, A.B., Joseph H. Rossi, M.D., and David P. Hall, M.D.</i>	87
Isolated Total Anomalous Pulmonary Venous Drainage. <i>Frank F. Dutra, M.D.</i>	94
Summary of Current Therapy: Significance and Treatment of Premature Systoles. <i>David H. Irving, M.D.</i>	102
Electrocardiogram of the Month: Wenckebach Block of Sino-Atrial Conduction. <i>Edwin L. Rothfeld, M.D., and Arthur Bernstein, M.D.</i>	106
Editorial: A New Concept of Emphysema. <i>Andrew L. Banyai, M.D.</i>	107
New College Officers Elected.	109
Dr. Alvan L. Barach Receives 1961 College Medal.	110
Scientific News Items from the 27th Annual Meeting.	112
Book Reviews	118

Number 2, August, 1961

The Suprarenal Function in Allergic Asthma. <i>Jorge Raul Vaccarezza, M.D.</i>	121
A Controlled Study Using Routine Intermittent Positive Pressure Breathing in the Post-Surgical Patient. <i>James H. Sands, M.D., Constance Cyfert, A.A.I.T., Robert Armstrong, M.D., Samuel Ching, M.D., David Trainer, M.D., William Quinn, M.D., and David Stewart, M.D.</i>	128
Ambulatory Treatment in Tuberculosis Control. <i>J. Rodriguez Pastor, M.D.</i>	134
Trypsin Therapy in Pulmonary Diseases, 1955-1960. <i>Harry Shubin, M.D., Jacob Sherson, M.D., and David Weissman, Ph.G.</i>	148
Current Role of Exfoliative Cytopathology in Routine Diagnosis of Bronchogenic Carcinoma. <i>William Umiker, M.D.</i>	154
Effect of Cationic Resins and of Chelating Agents in Media for Cultivation of <i>M. Tuberculosis</i> on Membrane Filters. <i>Ruth A. McKinney, Ph.D.</i>	160
Experimental Intrabronchial Administration of Neomycin in Man and Animals. <i>Victor Lorian, M.D.</i>	168
Fever Curve as an Indicator for Steroid Therapy in Miliary Tuberculosis. <i>Jerome A. Gold, M.D.</i>	171

Significance of Bronchiectasis Complicating Lung Cancer.
I. Boerema, M.D., and J. C. Gerrits, M.D...... 176

Pleural Biopsy and Thoracentesis by a New Instrument.
R. L. Carpenter, M.D., and James R. Lowell, M.D...... 182

Pulmonary Function Tests: Applications, Observations, Interpretations.
Jack W. Hall, M.D...... 187

X-Ray Film of the Month. *William P. Bieber, M.D.*..... 194

SECTION ON CARDIOVASCULAR DISEASES

Pulmonary Function in the Selection of Patients for Open Heart Surgery.
*Roe E. Wells, Jr., M.D., Warren J. Taylor, M.D.,
Harrison Black, M.D., and Dwight E. Harken, M.D.*..... 196

Use of Chlorothiazide or Hydrochlorothiazide with Reserpine in Office Treatment of Hypertension. *David B. Fishback, M.D., and Louis H. Castor, M.D.*..... 203

Rehabilitation of the Coronary Thrombosis Patient. *Rudolph T. Wagner, M.D.*..... 210

Summary of Current Therapy: Advantages and Disadvantages of Using Heparin as the Sole Anticoagulant During the First 30 Days after Acute Myocardial Infarction. *E. Grey Dimond, M.D., and P. F. Trotta, M.D.*..... 214

Electrocardiogram of the Month: The Electrocardiogram in Periodic Paralysis. *Morris J. Weisler, M.D.*..... 217

Electrocardiographic Pattern in Acute Pulmonary Embolism Simulating Acute Myocardial Infarction—Case Report.
Mehmet Cavusoglu, M.D., and Adolph Foti, M.D...... 219

Paroxysmal Ventricular Tachycardia. *Lawrence R. Ross, M.D.*..... 223

Editorial: The Fountain of Trevi of Science. *Andrew L. Banyai, M.D.*..... 229

Report of the 27th Annual Meeting..... 232

Number 3, September, 1961

Serum Protein Abnormalities in Neoplastic and Non-Neoplastic Diseases of the Lung. *Charles M. Carpenter, M.D.,
Charles L. Heiskell, M.D., Henry E. Weimer, Ph.D.,
Morimichi Fukuda, M.D., Akira Yachi, M.D., and Takeo Wada, M.D.*..... 245

Choice of Initial Chemotherapy Regimen in Pulmonary Tuberculosis. *Alex Saliba, M.D., and Oren A. Beatty, M.D.*..... 259

Cervicomedial Cystic Hygroma. *Richard A. Lim, M.D., Matthew B. Divertie, M.D., Edgar G. Harrison, Jr., M.D., and Philip E. Bernatz, M.D.*..... 265

Rehabilitation of Chronic, Drug Resistant Cases of Tuberculosis with Cycloserine, and Successful Treatment of Virgin Cases. *Israel G. Epstein, M.D., K. G. S. Nair, M.D., Michael G. Mulinos, M.D., Emanuel Horiuchi, M.D., and Benjamin Encarnacion, M.D.*..... 276

Acute Effect of Cigarette Smoking on Pulmonary Function Studies. *Edwin L. Rothfeld, M.D., David Biber, M.D., and Arthur Bernstein, M.D.*..... 284

Tuberculin Sensitivity and Tuberculosis in Nursing and Medical Students. *James R. Karns, M.D.*..... 291

Postoperative Pulmonary Atelectasis. *Rose K. L. Wong*..... 302

Solitary Pulmonary Nodule Due to *Ascaris Lumbricoides*. *Captain David P. Osborne, MC, USN; Captain Robert B. Brown, MC, USN; and Cdr. Robert M. Dimmette, MC, USN*..... 308

Roentgenogram of the Month. *Theodore L. Phillips, M.D.*..... 311

SECTION ON CARDIOVASCULAR DISEASES

Occluding Thrombi of the Left Atrium. *Lester L. Vargas, M.D., and William P. Corvese, M.D.*..... 313

Differential Diagnosis of Pulmonary Arteriovenous Fistula. *Sanford R. Mallin, M.D., Albert N. Brest, M.D., and John H. Moyer, M.D.*..... 322

Post-Myocardial Infarction Syndrome. *Constantin Samaras, M.D., Miltiades Kolettis, M.D., and Christos Papaconstantinu, M.D.*..... 330

Summary of Current Therapy: Therapy of Hypotension in Acute Myocardial Infarction. *E. Maurice Heller, M.D.*..... 338

Electrocardiogram of the Month: Intermittent Bundle Branch Block. *Ray H. Rosenman, M.D.*..... 342

Recommended Procedures for Practical Evaluation of Impaired Lung Function in Individuals with Occupational Chest Diseases. *Report of the Committee on Occupational Diseases of the Chest and Committee on Pulmonary Physiology, American College of Chest Physicians*..... 344

Scientific Reports from the 27th Annual Meeting..... 348

Chapter News..... 351

Program, College Interim Session..... 354

Number 4, October, 1961

Allergic Reactions to ACTH. <i>Donald L. Unger, M.D., and Leon Unger, M.D.</i>	359
Comments on Some Controversial Questions of Bronchial Classification and Nomenclature. <i>Dezso Kassay, M.D.</i>	364
Further Investigation on the Usefulness of the Direct Qualitative Micro-Niacin Test for Distinguishing Human Tubercle Bacilli from Other Mycobacteria. <i>Maurice S. Tarshis, Ph.D.</i>	374
Papworth and Enham-Alamein Village Settlements. <i>Richard R. Trail, M.D.</i>	381
Ventilation Studies in Nonsmokers and Smokers. <i>George Bower, M.D.</i>	386
Spontaneous Pneumothorax: Review of 71 Cases. <i>Robert G. Stanek, M.D., John L. Wilson, M.D., and William L. Rogers, M.D.</i>	391
Effect of Direct Irradiation on the Course of Pulmonary Tuberculosis (Using Cancerocidal Doses). <i>I. D. Bobrowitz, M.D., Milton Elkin, M.D., John C. Evans, M.D., and Albert Lin, M.D.</i>	397
Therapeutic Dividend of Roentgenographic Resurveys in a Psychiatric Hospital. <i>William Weiss, M.D.</i>	407
The Ciliary Mechanism in Health and Disease. <i>Robert Liberman</i>	412
Cardiorespiratory Syndrome of Obesity in a Child. <i>Lois T. Ellison, M.D., Robert E. Talley, B.S., LeRoy C. Mims, M.D., and Robert G. Ellison, M.D.</i>	419
Roentgenogram of the Month. <i>Harold Spitz, M.D.</i>	426
SECTION ON CARDIOVASCULAR DISEASES	
Clinical and Physiologic Changes Following Surgical Closure of Atrial Septal Defect. <i>JD Mortensen, M.D., L. George Veasy, M.D., and Alan F. Toronto, M.D.</i>	428
Anticoagulant Treatment in Acute Coronary Occlusion with So-Called Ischemic Pattern. <i>Joseph Edeiken, M.D.</i>	439
A Double-Blind Study of Reserpine in Angina Pectoris. <i>Benjamin A. Rosenberg, M.D., and Monte Malach, M.D.</i>	448
Summary of Current Therapy: A Bear By the Tail? The Discontinuance of Anticoagulant Therapy. <i>Irving S. Wright, M.D.</i>	454
Electrocardiogram of the Month: Electrocardiographic Changes Simulating Ischemic Heart Disease. <i>Herbert J. Semler, M.D., and Milton W. Anderson, M.D.</i>	457
Combined Salicylate, Corticotropin and Corticosteroid Therapy in Acute Monocyclic Rheumatic Pancarditis. <i>Jim S. Jewett, M.D.</i>	459
Joint Report of the United States and International Committees on Pathology and Microbiology. <i>American College of Chest Physicians</i>	465
Editorial: Influenza Immunization. <i>Robert J. Anderson, M.D.</i>	470
Presidential Address	472
Chapter News	474
Scientific Reports from 27th Annual Meeting	476

Number 5, November, 1961

Surgical Treatment of Pectus Excavatum Utilizing an Adhesive Hemicast. <i>Colin S. Dafoc, M.D., and Colin A. Ross, M.D.</i>	479
Changes in Ventilation Following Complicated Pulmonary Resections. <i>David V. Pecora, M.D.</i>	491
Tuberculosis in an Industrial Plant. <i>James T. Perret, M.D., and Neill K. Weaver, M.D.</i>	499
Pulmonary Tuberculosis in Old Age. <i>J. Adler, M.D., G. Librach, M.D., and M. Berlin, M.D.</i>	504
The Chest Diameter as a Diagnostic Tool. <i>Jack J. Falsone, M.D.</i>	513
Pulmonary Tuberculosis in Contacts: A Ten Year Survey. <i>A. W. Lees, M.D., G. W. Allen, M.B., J. Smith, M.B., and W. F. Tyrrell, M.B., B.Sc.</i>	516
A Design for Inhalation Therapy. <i>George L. Baum, M.D., James J. Traitz, M.D., and Charles W. Silverblatt, M.D.</i>	522
Bronchial Washings in the Diagnosis of Lung Cancer. <i>Charles A. Ross, M.D., Jose Arroyo Garcia, M.D., and Eugene M. Burke, B.S.</i>	527
The Natural History, Pathology and Treatment of Chronic Bronchitis. <i>Bernard Garston</i>	530
Spontaneous Hemopneumothorax. <i>Porter Mayo, M.D.</i>	539
Idiopathic Disseminated Pulmonary Ossification. <i>Irving M. Reingold, M.D., and George S. Mizunoue, M.D.</i>	543

Chronic Pneumonitis of the Cholesterol Type.	
<i>Karl-Albert Dresen, M.D., and Wayne R. Redline, M.D.</i>	547
Carcinoma Arising in a Congenital Lung Cyst. <i>Lt. Stanley Bauer, MC, USNR</i>	552
Roentgenogram of the Month. <i>James B. D. Mark, M.D.</i>	556
SECTION ON CARDIOVASCULAR DISEASES	
Left Bronchial and Pulmonary Changes in Mitral Stenosis. <i>Harry Vesell, M.D.</i>	557
Tuberculosis and Cardiopulmonary Failure. <i>L. Levinsky, M.D.</i>	564
Differential Diagnosis of the Cardiovascular Diseases	
Through Right and Left Heart Catheterization—A Review.	
<i>Aldo A. Luisada, M.D., and Jan Szatkowski, M.D.</i>	573
Summary of Current Therapy: Vasopressor Therapy for Cardiac Arrhythmias. <i>Eliot Corday, M.D., and Herbert Gold, M.D.</i>	590
Electrocardiogram of the Month: Delayed Conduction in Dystrophica Myotonia. <i>Alfred Soffer, M.D.</i>	594
Medical Service Bureau, Calendar of Events	593

Number 6, December, 1961

Surgical Removal of the Carotid Body for Bronchial Asthma.	
<i>Komei Nakayama, M.D.</i>	595
Glomectomy for Asthma. <i>Richard H. Overholt, M.D.</i>	605
Atypical Forms of <i>M. Tuberculosis</i> . <i>Henry C. Sweeney, M.D.</i>	611
Chemical Pneumonitis from Inhalation of Zinc Chloride.	
<i>Captain Frank A. Johnson, USAF, MC and Lt. Colonel Robert B. Stonehill, USAF, MC</i>	619
Lung Abscess as Seen in a Municipal Hospital.	
<i>Ernest O. Henschel, M.D., Burton A. Waitsbren, M.D., and Milton Glaser, M.D.</i>	625
A Program for Rehabilitation of Patients with Tuberculosis.	
<i>Martin Nacman, M.S.S.W., and Sidney H. Dressler, M.D.</i>	631
Use of Hypertonic Aerosol in Production of Sputum for Diagnosis of Tuberculosis.	
<i>Lt. Colonel Nestor M. Hensler, USAF, MC; Major Charles G. Spivey, Jr., USAF, MC; and Captain Tom M. Dees, USAF, MC</i>	639
Aortic Body Tumors. <i>Robert H. LePere, M.D. and George C. Mani, M.D.</i>	643
A Case of Tuberculous Thoracic Aortitis with Massive Hemoptysis Resulting from Rupture of Involved Aorta into Lung. <i>Jun Fujii, M.D., Hiroshi Tsukagoshi, M.D., Toshiji Mozai, M.D., and Riichi Mikami, M.D.</i>	648
Probable Miliary Tuberculosis at Term. <i>Victor Siegel, M.D.</i>	651
Muco-Epidermoid Tumor of the Bronchus. <i>Charles V. Meckstroth, M.D., Horace B. Davidson, M.D., and George O. Kress, M.D.</i>	652
Two Unrelated Teratomata. <i>Y. E. Kalter, M.D.</i>	657
Chronic Interstitial Pneumonitis of the Azygos Lobe. <i>Jack Margolis, M.D.</i>	661
Roentgenogram of the Month. <i>William W. Joule, M.D.</i>	663
SECTION ON CARDIOVASCULAR DISEASES	
Effect of Exercise upon the Mean Systolic Left Ventricular-Brachial Artery Gradient in Aortic Stenosis. <i>Philip Samet, M.D., William H. Bernstein, M.D., and Robert S. Litwak, M.D.</i>	665
Maintenance of Adequate Circulation during Cardiac Standstill Using a Mechano-Cardiac Compressor. <i>Philip Y. Attalla, M.D., Cesar Borquez Vial, M.D., Peter V. Moulder, M.D., and William E. Adams, M.D.</i>	672
Effect of Urea and Invert Sugar (Urevert) on Cerebral Damage Occurring after Cardiac Arrest. <i>Kenneth Wolfe, B.S.</i>	681
Summary of Current Therapy: Cardiac Arrest: Modern Management. <i>Robert B. T. Skelton, M.D.</i>	685
Electrocardiogram of the Month: Fluctuating Nodal Rhythm. <i>I. Lutfi Vural, M.D., and Stephen R. Elek, M.D.</i>	691
Melioidosis. <i>Celal Ertug, M.D.</i>	693
Abnormalities of the Pulmonary Artery Resembling Intrathoracic Neoplasms. <i>William B. Buckingham, M.D., George C. Sutton, M.D., and William T. Meszaros, M.D.</i>	698
